

MODEL

200-TRAY

FIBER
MANAGEMENT
TRAY

The model 200-TRAY is a machined aluminum fiber management tray that can be mounted directly to a 203, 205, or 207 LaserMount. Wide radius with lipped edges contain the fiber without the need for clips or ties. The tray can also be used with the 200-C cover.

QUICK INSTALLATION

Installs with four screws.

PROTECTS EXCESS FIBER

Machined aluminum guides retain and protect excess fiber without the need for clips or ties.

WORKS WITH LASER COVER

Works with 200-C Laser Cover.

AT-A-GLANCE
